Reporting Multiple Regressions in APA format – Part Two ...

APA Style tables have the following basic components:

number: The table number (e.g., Table 1) appears above the table title and body in bold font. Number tables in the order in which they are mentioned in your paper.

title: The table title appears one double-spaced line below the table number. Give each table a brief but descriptive title, and capitalize the table title in italic title case.

Table Setup - APA Style

File Type PDF Apa Style Table Standard Regression

APA style dictates reporting the exact p value within the text of a manuscript (unless the p value is less than .001). Finally, this resource does not address how to report effect sizes, but appropriate effect sizes (e.g., Cohen's d) should be reported with results. Please pay attention to issues of italics and spacing.

...

The first table is an example of a four-step hierarchical regression, which involves the interaction between two continuous scores. In this example, structural (or demographic) variables are entered at Step 1 (Model 1), age (centered) is added at Step 2 (Model 2), depression (centered) is added at Step 3 (Model 3), and the interaction between the centered age and centered depression scores is added at Step 4 (Model 4).

R r and the standardized β .
