The Clever Teens' Guide to The Cold War provides a concise account of the political tensions that arose as the world rebuilt after World War Two - an era beset by the constant fear of nuclear weapons and the looming threat of a Third World War. Ideal for your "clever teenager".

In this illuminating and deeply moving memoir, a former American military intelligence officer goes beyond traditional Cold War espionage tales to tell the true story of her family—of five women separated by the Iron Curtain for more than forty years, and their miraculous reunion after the fall of the Berlin Wall. *Forty Autumns* makes visceral the pain and longing of one family forced to live apart in a world divided by two. At twenty, Hanna escaped from East to West Germany. But the price of freedom—leaving behind her parents, eight siblings, and family home—was heartbreaking. Uprooted, Hanna eventually moved to America, where she settled down with her husband and had children of her own. Growing up near Washington, D.C., Hanna's daughter, Nina Willner became the first female Army Intelligence Officer to lead sensitive intelligence operations in East Berlin at the height of the Cold War. Though only a few miles separated American Nina and her German relatives—grandmother Oma, Aunt Heidi, and cousin, Cordula, a member of the East German Olympic training team—a bitter political war kept them apart. In *Forty Autumns*, Nina recounts her family's story—five ordinary lives buffeted by circumstances beyond their control. She takes us deep into the tumultuous and terrifying world of East Germany under Communist rule, revealing both the cruel reality her relatives endured and her own experiences as an intelligence officer, running secret operations behind the Berlin Wall that put her life at risk. A personal look at a tenuous era that divided a city and a nation, and continues to haunt us, *Forty Autumns* is an intimate and beautifully written story of courage, resilience, and love—of five women whose spirits could not be broken, and who fought to preserve what matters most: family. *Forty Autumns* is illustrated with dozens of black-and-white and color photographs.

How the modern world was shaped by super power rivalry through deception and propaganda This guide exposes the reality behind the war between capitalism and communism, two ideologies divided by the Iron Curtain. New revelations show that what was once regarded as simply a struggle between good and evil was in fact a far more complex affair. Marilyn Thomas peels back the layers of deception and intrigue and offers a penetrating assessment of the legacy of instability that continues today.

Even fifteen years after the end of the Cold War, it is still hard to grasp that we no longer live under its immense specter. For nearly half a century, from the end of World War II to the early 1990s, all world events hung in the balance of a simmering dispute between two of the greatest military powers in history. Hundreds of millions of people held their collective breath as the United States and the Soviet Union, two national ideological entities, waged proxy wars to determine spheres of influence – and millions of others perished in places like Korea, Vietnam, and Angola, where this cold war flared hot. Such a consideration of the Cold War – as a military event with sociopolitical and economic overtones – is the crux of this stellar collection of twenty-six essays compiled and edited by Robert Cowley, the longtime editor of *MHQ: The Quarterly Journal of Military History*. Befitting such a complex and far-ranging period, the volume's contributing writers cover myriad angles. John Prados, in “The War Scare of 1983,” shows just how close we were to escalating a war of words into a nuclear holocaust. Victor Davis Hanson offers “The Right Man,” his pungent reassessment of the bellicose air-power zealot Curtis LeMay as a man whose words were judged more critically than his actions. The secret war also gets its due in George Feiffer's “The Berlin Tunnel,” which details the charismatic C.I.A. operative “Big Bill” Harvey's effort to tunnel under East Berlin and tap Soviet phone lines – and the Soviets' equally audacious reaction to the plan; while “The Truth About Overflights,” by R. Cargill Hall, sheds light on some of the Cold War's best-kept secrets. The often overlooked human cost of fighting the Cold War finds a clear voice in “MIA” by Marilyn Elkins, the widow of a Navy airman, who details the struggle to learn the truth about her husband, Lt. Frank C. Elkins, whose A-4 Skyhawk disappeared over Vietnam in 1966. In addition there are profiles of the war's “front lines” – Dien Bien Phu, the Cuban Missile Crisis, the Bay of Pigs – as well as of prominent military and civil leaders from both sides, including Harry S. Truman, Nikita Khrushchev, Dean Acheson, Gen. Douglas MacArthur, Richard M. Nixon, Gen. Vo Nguyen Giap, and others. Encompassing so many perspectives and events, *The Cold War* succeeds at an impossible task: illuminating and explaining the history of an undeclared shadow war that threatened the very existence of humankind.

The Cold War between the United States and the Soviet Union lasted from the end of World War II until the end of the 1980s. Over the course of five decades, they never came to blows directly. Rather, these two world superpowers competed in other arenas that would touch almost every corner of the globe. Inside you will read about... “Enthralling. . . . Lying and stealing and invading, it should be said, make for captivating reading, especially in the hands of a storyteller as skilled as Anderson.” —The New York Times Book Review A NEW YORK TIMES NOTABLE BOOK OF THE YEAR At the end of World War II, the United States was considered the victor over tyranny and a champion of freedom. But it was clear—to some—that the Soviet Union was already seeking to expand and foment revolution around the world, and the American government's strategy in response relied on the secret efforts of a newly formed CIA. Chronicling the fascinating lives of the agents who sought to uphold American ideals abroad, Scott Anderson follows the exploits of four spies: Michael Burke, who organized parachute commandos from an Italian villa; Frank Wisner, an ingenious spymaster who directed actions around the world; Peter Sichel, a German Jew who outwitted the ruthless KGB in Berlin; and Edward Lansdale, a mastermind of psychological warfare in the Far East. But despite their lofty ambitions, time and again their efforts went awry, thwarted by a combination of ham-fisted politicking and ideological rigidity at the highest levels of the government. Told with narrative brio, deep research, and a skeptical eye, *The Quiet Americans* is the gripping story of how

the United States, at the very pinnacle of its power, managed to permanently damage its moral standing in the world.

The Cold War dominated the world political arena for forty-five years. Focusing on the international system and on events in all parts of the globe, Melvyn P. Leffler and David S. Painter have brought together a truly international collection of articles that provide a fresh and comprehensive analysis of the origins of the Cold War. Moving beyond earlier controversies, this edited collection focuses on the interaction between geopolitics and threat perception, technology and strategy, ideology and social reconstruction, national economic reform and patterns of international trade, and decolonization and national liberation. The editors also consider how and why the Cold War spread from Europe to Asia, Africa, the Middle East and Latin America and how groups, classes and elites used the Cold War to further their own interests. This second edition includes the newest research from the Communist side of the Cold War and the most recent debates on culture, race and the role of intelligence analysis. Also included is a completely new section dealing with the Cold War crises in Iran, Turkey and Greece and a guide to further reading.
