thereby take on the character of an un of an alternative. According to sophisticated fal challengeable certainty of belief ('religion'). sifiability, a scientific theory T r is only aban Following Popper, others such as Kuhn, with doned if its place is taken by another theory T2 his paradigm theory, have considerably

File Type PDF Guidelines For

extended which has the following three characteristics: 1 the range of thought over what is scientific and T 2 has more empirical content than TI; the new what is not.

Primary care medicine is the new frontier in medicine. Every nation in the world has recognized the necessity

File Type PDF Guidelines For

to deliver personal and primary care to its people. This includes first-contact care, care based in a positive and caring personal relationship, care by a single healthcare provider for the majority of the patient's problems, coordination of all care by the patient's personal provider, advocacy for the patient by the pro

File Type PDF Guidelines For

vider, the provision of preventive care and psychosocial care, as well as care for episodes of acute and chronic illness. These facets of care work most effectively when they are embedded in a coherent integrated approach. The support for primary care derives from several significant trends. First,

File Type PDF Guidelines For

technologically based care costs have rocketed beyond reason or availability, occurring in the face of exploding populations and diminishing real resources in many parts of the world, even in the wealthier nations.

Simultaneously, the primary care disciplines—general internal medicine and pediatrics

File Type PDF Guidelines For

and family medicine-
have matured
significantly.

A concise and highly
visual guide to
postgraduate physical
examination for the
MRCS exam, from an
expert panel of
surgeons.

The definitive evidence-
based introduction to
