Leah Anderle is trying to get on with her life now that both of her parents are deceased. She occupies her days working as a paralegal in a prestigious Chicago law firm and spends her nights attempting to dissect flashbacks about her mother that continually haunt her. On the same day she seeks assistance from a private investigator, a junior partner in the law firm asks her out to dinner to discuss a case. Alan Parkin is the handsome nephew of one of the founders of Marsden, Willett, and Desmond. Although attracted to him, Leah has no expectations for their dinner date other than to hash out legal strategies. As one date turns into several, their friendship transforms into love, dismaying Horace Marsden who is determined to prevent his nephew, Alan, from making a mistake. But everything changes when a surprising discovery forces Leah to make difficult decisions, and a series of events causes Alan to question his commitment to the legal profession and his ability to function in the so-called real world. Finding Joy is a poignant story of love, loss, disappointment, and failure as a young woman and her soul mate search for forgiveness, happiness, and themselves.

This market-leading text is known for its comprehensive coverage, careful and correct mathematics, outstanding exercises, and self contained subject matter parts for maximum flexibility. The new edition continues with the tradition of providing instructors and students with a comprehensive and up-to-date resource for teaching and learning engineering mathematics, that is, applied mathematics for engineers and physicists, mathematicians and computer scientists, as well as members of other disciplines.

When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

Joseph and George Anderson are once again back to match-making in the sixth book in The Billionaire Bachelors Series. Bree has had enough of over-protective brothers and a meddling father, so she decides to run to a small town, where she can prove she can make it on her own. The only thing wrong with that situation is there's a stalker after her, determined to make her his - or else end her life. George hires Chad, Mark's best friend and ex-Navy Seal to guard Bree. She is furious about her father sending her a babysitter. Sparks and bullets fly between Bree and Chad. Open the pages to find humor, love, mystery and so much more. Enjoy the newest book in the bestselling romance series "Billionaire Bachelors"

Develops a simple non-Euclidean geometry and explores some of its practical applications through graphs, research problems, and exercises. Includes selected answers.
