Help your students take control of their university experience, one step at a time. In *Be Well, Learn Well*, Gareth Hughes explores the different dimensions of student wellbeing (physical, psychological, social and academic) and helps students understand the connection between their wellbeing and academic performance. *Be Well, Learn Well* begins by considering the impact of factors such as diet, exercise, hydration, sleep and sunlight on learning, before examining how 'deep' learning can improve wellbeing. Subsequent chapters help students create meaningful connections with their studies, build motivation and approach exams, presentations and group projects with confidence. The final chapter challenges unhelpful narratives around career trajectories and helps students to take small, manageable steps towards their goals. This inspirational guide by the lead author of the UK's University Mental Health Charter will empower students of all disciplines to study more effectively, feel calmer and take control of their time at university.

In the course of working with students across various disciplines, Claire Odogbo realized that many students have problems with their studies because they do not understand the basic principles of learning. Most teenagers and young adults in our schools and

institutions of higher learning do not know how to learn. They are used to simply memorizing things without understanding them, and then providing the memorized information as their answers to relevant questions asked in tests and examinations. Such a learning method creates a very weak foundation for true learning and development, as it does nothing to improve the learner. Learning to Learn is an attempt to correct this problem and aid those who really wish to learn, along the path of true learning, to attain self-development and higher achievements in life. This manual is designed as a handbook for the person who wants to be a more effective learner. Anyone who wishes to benefit from it must constantly refer to it in order to effectively implement the principles and ideas presented herein. This work is designed for easy reading and comprehension by persons in the seventh grade and higher, hence the author has refrained from delving too deep into the intricacies involved in learning.

Academic Writing with Corpora offers a step-by-step accessible guide to using concordancers and aims to help introduce data-driven learning into the academic English classroom. Addressing the challenges faced by EAP teachers when explaining to their students how to write 'naturally', this book provides a solution to the problem by placing an emphasis on learning from expert and proficient writing. In doing so, it: takes a highly practical approach; uses Lextutor, an easy-to-use, open access concordancer, whilst introducing students to tools, such as SkELL, MICUSP and BNC-English Corpora; fosters autonomous learning by demonstrating how to solve everyday difficulties in word choice and grammar; helps teachers to use corpora in teaching proficient writing and helps students to improve their academic writing by learning from the best examples in their field; guides students towards better awareness of the communicative side of academic writing. This book forms essential reading for all students on academic writing and EAP courses or who wish to improve their writing.

Do you feel like you spend way more time studying than you should or even want to? Truth is, many students do! Are you confused by the feedback you get from your academic teachers and mentors? This clear and accessible guide to decoding academic feedback will help you interpret what your lecturer or research supervisor is really trying to tell you about your writing—and show you how to fix it. It will help you master a range of techniques and strategies to take your writing to the next level and along the way you'll learn why academic text looks the way it does, and how to produce that 'authoritative scholarly voice' that everyone talks about. This book is an easy-to-use resource for postgraduate students and researchers in all disciplines, and even professional academics, to diagnose their writing issues and find ways to fix them. This book would also be a valuable text for academic writing courses and writing groups, such as those offered in doctoral and Master's by research degree programmes. 'Whether they have writing problems or not, every academic writer will want this handy compendium of effective strategies and sound explanations on their book shelf—it's a must-have.' Pat Thomson,
