Participants in the Derivatives Market. The participants in the derivatives market can be broadly categorized into the following four groups: 1. Hedgers. Hedging is when a person invests in financial markets to reduce the risk of price volatility in exchange markets, i.e., eliminate the risk of future price movements. Derivatives are the most popular instruments in the sphere of hedging.

Derivatives can be traded in two distinct ways. The first is over-the-counter (OTC) derivatives, that see the terms of the contract privately negotiated between the parties involved (a non-standardised contract) in an unregulated market. The second way to trade derivatives is through a regulated exchange that offers standardised contracts. This provides the benefit of having the exchange act as an intermediary, helping traders avoid the counterparty risk that comes with unregulated OTC ...
