In "The Future of Industrial Man," Peter F. Drucker has produced an important book -- one which, like most such books, a difficult read. Intended as a companion to "The End of Economic Man: The Origins of Totalitarianism," it arguably does a better job of explaining those origins, tracing them to the Enlightenment-era enthronement of human reason as a perfect vehicle for discerning the social ...

~~Amazon.com: Customer reviews: The Future of Industrial Man~~

“ The Future of Industrial Man ” (1942) Drucker describes the requirements for a functioning society by developing a social theory of society in general and of the industrial society in particular. In The Future of Industrial Man, Peter Drucker presents the requirements for any society for it to be both legitimate and functioning. Such a society must give status and function to the individual.
