Shared parenting is what a child should expect. Telling kids to expect only seeing their dad on weekends is horrible. Parenting is done by both mom and dad. It's terrible to teach children that fathers are not equal in raising a child. I wouldn't read this to any child struggling after they have been through the neglect of a seperation/divorce.

A little boy spends the weekend at his dad's new apartment in this picture book about how things change when parents separate – and the important things that stay the same. “This home is home because my dad is here, and it's nothing like home because my mom isn't here,” thinks the boy in this story when he enters his dad's new apartment for the first time. His dad moved out on Monday and now it's Friday night, the start of his weekend with his dad. The boy and his dad follow their normal weekend routine – they eat eggs for breakfast, play cards and spend time at the park. And then they do the same things on Sunday. It is hard to say goodbye at the end of the weekend, but Dad gives his son a letter to remind him that, even if they can't always be together, the boy is loved. Naseem Hrab has written a poignant yet hopeful story, strikingly illustrated in Frank Viva's signature style, about what happens when parents separate, and the new reality of having two homes. “Fans of Clementine and Ramona have a reason to rejoice: there's a new kid on the block . . . Bighearted, hilarious, and tender.” –Katherine Applegate, Newbery medalist Max and his dad love their weekends together. Weekends mean pancakes, pizza, spy games, dog-walking, school projects, and surprising neighbors! Every weekend presents a small adventure as Max gets to know his dad's new neighborhood—and learns some new ways of thinking about home. Acclaimed author Linda Urban deftly portrays a third-grader's inner world during a time of transition in this sweet and funny illustrated story that bridges the early reader and middle-grade novel. “Urban's subtle and perceptive take on divorce will resonate with children facing similar predicaments as she blends Max's worries and ‘someone-sitting-on-his-chest’ feelings with a vivid imagination and good intentions that take father and son on some very entertaining adventures—with future ones planned.” –Publishers Weekly (starred review) “Urban excels at credibly presenting this situation from Max's third-grade point of view . . . Urban's writing is both crisply specific (a basset hound ‘sniffed as she walked through puddles, dragging her ears like flat-bottomed boats’) and simple enough to be accessible.” –The Bulletin (starred review) “A sweet, empathetic look at a common situation.” –Kirkus Reviews “Urban's touch is light throughout . . . a story just right for budding chapter-book readers.” –The Horn Book “The cast of characters grows throughout, but at the heart of the story is Max's warm, easygoing relationship with his father.” –Booklist

Examine the impact of disclosure on sons whose fathers are gay! In this book, Andrew Gottlieb, author of *Out of the Twilight: Fathers of Gay Men Speak*, explores yet another side of the impact of homosexuality on families. He now looks at how sons react to learning that their fathers are gay, allowing us to see, over time, how this has changed their family relationships and their own lives. Simply and elegantly written, this psychoanalytically oriented qualitative research study is accessible to both the beginner and the more advanced researcher and practitioner. It draws from a wide range of literary, popular, and psychological sources and includes an interview guide, a reference section, and an index. “When someone discloses as gay, lesbian, or bisexual, it is not just an individual event. It is a family event. Based on estimates of married gay, lesbian, and bisexual persons, a spouse's coming out affects up to 2,000,000 couples. Yet, its impact has been largely ignored. Children's voices are the least often heard. . . . Little has been written about sons of fathers who came out during or after marriage. Data for studies that do exist most often draw from the fathers' point of view. . . . The significance of this study lies in its comprehensive, detailed picture of sons and gay fathers as they develop their separate self-images as well as the images of their son-father relationships over time. Painful, sensitive, often triumphant, the stories and [the author's] analysis of their thoughts, perceptions, and feelings afford a multidimensional, longitudinal viewing. Step by step, we follow the complicated dance of these sons and fathers as they develop and define their connection.” –from the Foreword by Amity Pierce Buxton, Author of *The Other Side of the Closet: The Coming-Out Crisis for Straight Spouses and Families Sons Talk About Their Gay Fathers: Life Curves* is a storybook—an extended narrative moved along, but not overshadowed, by psychoanalytic theory. The Introduction briefly reviews more recent writings of the fathering experience as told by gay men themselves, setting the stage for: “Father to Child”—a look at the father as seen through the ever-shifting eyes of his son at different phases of the life cycle “The Quest for the Real Father”—an examination of sons' responses to their fathers' homosexuality as captured in film, fiction, nonfiction, television, and the psychological literature “Methodology”—the story of the research process, including sampling, the search for subjects, trustworthiness, the interview, bias, and data collection “The Stories”—an anthology of narratives the author constructed from the interview material, painting an intimate portrait of each individual son “Findings”—a categorical analysis “Discussion”—a summary of all the preceding material cast in a developmental framework, highlighting implications for future research and clinical practice
